JUST FOR YOU

RESTRUCTURE

—
For damaged hair

THE NEED, THE ANSWER

The most effective remedy for hair with structural damage and loss of tone and body, that looks dry, dull and dehydrated, is this shaft-restructuring ritual. In three steps, it restores collagen and proteins; the hair is instantly plumped and reinforced in its most damaged parts, so it is perfectly regenerated. For a professional ritual, at least four sessions are recommended: the first two to be had two weeks apart, then once a month. The home maintenance ritual helps achieve longer-lasting results faster and more effectively.

INSTRUCTIONS FOR USE

Piling of the Sauna Stones The piling of the sauna stones has a great effect on the functioning of the heater

تعليمات استخدام الساونا
تراكم أحجار الساونا له تأثير كبير على عمل المدفأة

Important information on sauna stones:

1. The stones should be 5–10 cm in diameter
2. Use solely angular split-face sauna stones that are intended for use in a heater. Peridotite, olivine
3. dolerite and olivine are suitable stone types
4. Neither light, porous ceramic "stones" nor soft soapstone's should be used in the heater. They do not absorb enough heat when warmed up. This can result in damage in heating elements.
5. Wash off dust from the stones before piling them into the heater.

معلومات مهمة عن أحجار الساونا

١. يجب أن يكون قطر الحجارة ٥-١٠ سم
٢. استخدم فقط أحجار الساونا ذات الزوايا المقسمة والمخصصة للاستخدام في المدفأة الزبرجد الزيتوني، أنواعًا مناسبة من الأحجار
٣. لا ينبغي استخدام «أحجار» خزفية خفيفة مسامية أو أحجار صابونية ناعمة في السخان. لا تمتص حرارة كافية عند تسخينها. يمكن أن يؤدي هذا إلى تلف عناصر التسخين.
٤. اغسل الأتربة من الحجارة قبل تكديسها في المدفأة
